

UTILITY TRANSFER INFORMATION

As a courtesy, we are providing the utility company information for the property to assist you with moving in.

IMPORTANT

The utilities are on in the home you are leasing. Before you take possession of the property/move in, you must contact the utility companies to transfer them to your name. The Tenant may not move in until the utilities are registered in their name. You must show proof by providing the confirmation numbers or account numbers upon picking up the keys; they will be added to your lease.

The Tenant is responsible for all utility activation fees.

Please take the time to locate and familiarize yourself with the location of the gas and water shutoff valves and the electric fuses and/or breakers.
